Through a garland of flags the Father of His Country is seen gazing at the World of Tomorrow. The monumental figure of George Washington remains a dominant and inspiring feature of the World's Fair of 1940 in New York. The statue is the work of James Earle Fraser (a native of Winona, Minnesota) and stands more than 60 feet high - far taller than the angle of this photograph would indicate.

George Washington Statue as seen through a Garland of Flags,
